PROJECTS

WhatToEat: Halal-Compliant Meal Planner | Angular, TypeScript, Tailwind CSS

2025 – 2026

- Built a meal planner web app that filters recipes by halal compliance and allergens, then matches them against what ingredients you already have at home
- Wrote a multi-stage filtering pipeline (halal check → allergen exclusion → pantry matching) that runs in O(n) time and sorts results by match percentage
- Calculated nutrition on the fly from a base ingredient dataset, so macros update automatically when serving size changes
- Added a recipe manager where users can add, edit, and delete their own recipes, saved in the browser's LocalStorage

Personal Portfolio | HTML, CSS, GitHub Pages

2026

- Built and deployed a responsive portfolio from scratch with zero dependencies or frameworks, hosted on GitHub Pages

EXPERIENCE

Intern, Financial Systems Optimization, CDCA | Abidjan, Cote d'Ivoire

2025

- Wrote Python scripts to clean and reformat 200+ rows of financial records in Excel, cutting a 2-hour task down to 15 minutes
- Automated repetitive data entry across the firm's weekly spreadsheets, reducing manual errors in daily records

LEADERSHIP & SERVICE

Student Lead, ICSA AI Think Tank

2024 – 2026

- Led research and policy drafting for school-wide AI use guidelines; presented recommendations to faculty and administrators that were formally adopted

Founder & President, Project Supply 4 Students

2022 – 2026

- Founded a school supply initiative that raised \$6,000+ and partnered with 2 local schools, serving 300+ low-income students

Director, Help Us Help Them

2023 – 2026

- Directed a humanitarian project for displaced war victims, raising \$3,000+ in materials and coordinating logistics for distribution
