EXPERIENCE

Financial Systems Optimization Intern, CDCA | Abidjan, Côte d'Ivoire

Jun to Sep 2025

- Wrote Python scripts to clean and reformat weekly financial datasets in Excel, cutting a 2-hour manual task to 15 minutes
- Automated repetitive data entry across weekly spreadsheets, reducing formatting errors and improving record consistency

LEADERSHIP & POLICY

Student Lead, ICSA AI Think Tank

2024 to 2026

- Researched institutional AI risk and drafted a school-wide acceptable-use policy governing student and faculty AI tools
- Presented findings to faculty and administration and secured formal adoption of the policy after a three-month review

Founder & President, Project Supply 4 Students

2022 to 2026

- Founded a school supply initiative that raised \$6,000+ and partnered with 2 local schools, serving 300+ students

Director, Help Us Help Them

2023 to 2026

- Directed a humanitarian project for displaced families, raising \$3,000+ in materials and coordinating distribution logistics

PROJECTS

Personal Portfolio | HTML, CSS, JavaScript, GitHub Pages

2026

- Built and deployed a responsive portfolio from scratch with zero frameworks or dependencies, hosted on GitHub Pages
- Used Git for version control and GitHub Pages for continuous deployment; site is live at ibrahim-kone-dev.github.io
